CRYING FOR RAIN

Men Shout All Over the County Come

Reports of the Rain and the Wind

Threats—John Corn, Dead.

Oak Grove, June 11—We are still having dry hot weather, with very little prospect for rain.

Garrs, June 12—Crops are still needing rain badly. We had a light shower of rain here Tuesday morning.

Mudang, June 18—Crops are about half dead and the soil is the poorest in the county.

Justin, June 17—Threshing is progressing rapidly. Dry weather prevails. Some corn is dead and cotton is needing rain.

Sanger, June 17—What threshing is about over. The general average was about ten bushels per acre. Oats averaged about thirty bushels per acre. Corn will not average ten bushels per acre unless it rains in a day or two and much of it is already entirely ruined. Cotton looks very well, but there is some complaint of lice.

Aubrey, June 17—It rains now there will be lots of corn made around here. If it doesn't rain this week this year's crop will compare with last year's crop here. Wheat and oats are all being threshed around here. Wheat is averaging about fifteen bushels, oats about twenty bushels to the acre. There was no wheat made at all west of town, commencing about three miles and going west about ten miles.

Lawville, June 18—The drought still continues and if it lasts another week longer will undoubtedly cut corn to seed and very short. The shower Sunday did not lay the dust. Farmers are very hard up for their corn as it is already damaged twenty-five to fifty per cent. Excepting for lice on late corn, corn is doing well. Threshing is well under way and wheat is making from ten to twenty five bushels per acre. Very few oats and they are mostly poor.

Don't become discouraged. But use Simmons' Liver Purifier (the best). Many imitations of the original, so be careful and see that it's "Purifier" and manufactured by the A. G. Simmons Co., Medicine Co.

Our Modern Prescription Dep't.

Our prescription department and laboratory are entirely separate from the rest of the store. Therefore, prescriptions are compounded here under ideal conditions; the dispensing is done away from the noise and confusion of the store and the dispenser can concentrate his entire attention on the work in hand. This is one of the features that make this drug store the best in Denton county, at which to procure your drugs and medicines. There are many other features as excellent. Taking it the country over, not one store in five hundred as yet has a separate prescription room and yet you recognize its many advantages. It is well to remember also that our prescription department is presided over by our Mr. Minnis, the best years of whose life have been devoted to the practice of scientific pharmacy.

For

80c.

Until the next issue of this paper we will sell you a Brownie Camera for 80c. Brownie cameras are not toys, they are small, but do excellent work. They are necessarily first-class because made by the Eastman Kodak Co. Some beautiful little pictures are made with Brownie Camera. Come in and ask to see samples.

Paint to Stay Painted.

We sell Heath & Milligan's prepared paint. It is a pure lead, oil and zinc paint. It covers 30 square feet, two coats, per gallon. When it is put it endures for years. Paint value is not judged by first cost, but by square feet covered and years that it lasts. These goods, like all others carried, are the best that money can buy.
